

CURRICULUM VITAE

PETER BODORIK

PRESENT POSITIONS

2024 – present	CEO, 15498767 Canada Inc. Providing Smart-Contract-as-a-Service (SCaaS) for blockchain applications
2016 – present	Chief Technology Officer, Peer Ledger Inc. SME providing supply chain software supported by blockchain technology
1997 – present	Professor, Faculty of Computer Science, Dalhousie University

EDUCATION

B.Sc. (Honors in Computer Science), University of Calgary, 1974
M.Eng., Electrical Engineering, Carleton University, 1977
Ph.D., Electrical Engineering, Carleton University, 1985

PREVIOUS EMPLOYMENT OR RESPONSIBILITIES

2015 – 2017	Director, Master of Electronic Commerce, Dalhousie University
2011 – 2012	Acting Associate Dean, Research, Faculty of Computer Science
2008 – 2010	Associate Dean, Academic, Faculty of Computer Science
2007 – 2008	Director, Master of Electronic Commerce, Dalhousie University
1981 – 1997	Faculty Positions (Lecturer and Assistant, Associate, and Full Professor) School of Computer Science, Technical University of Nova Scotia
1978 – 1980	Systems Engineer, Microprocessor Systems Development Laboratory Carleton University, Ottawa, Ontario
1974 – 1975	Software Developer, MHG International, Calgary, Alberta

ADMINISTRATIVE DUTIES

2024-2025	Member, Tenure and Promotions Committee
2023-2024	Member, Senate Committee for Internetworking Graduate Program Review
2023-2024	Member, Graduate Committee, Faculty of Computer Science
2023-2023	Member, Search Committee, Faculty of Computer Science
2018-2019	Member, Search Committee, Faculty of Computer Science
2016-2017	Member, Search Committee, Faculty of Computer Science
2015-2017	Director, Master of Electronic Commerce Program, Dalhousie University
2014-2017	Member, Senate Planning and Governance Committee, Dalhousie University
2014-2017	Member, Senate Nominating Committee, Dalhousie University
2014-2017	Member, Senate, Dalhousie University
2012-2017	Member, Curriculum Committee of Collaboration for Analytics Research, Education and Technology (CARET)
2012-2017	Member, Master of Electronic Commerce Program Committee, Faculty of Computer Science
2012-2017	Member, Council, Faculty of Graduate Studies, Dalhousie University
2014-2016	Chair, Tenure and Promotions Committee, Faculty of Computer Science
2011-2012	Acting Associate Dean, Research, Faculty of Computer Science
2008-2010	Associate Dean Academic, Faculty of Computer Science
2008-2010	Member, Graduate Committee, Faculty of Graduate Studies, Dalhousie University
2006-2010	Chair, Tenure and Promotions Committee, Faculty of Computer Science
2009-2010	Member (ex-officio), Undergraduate Committee, Faculty of Computer Science
2009-2010	Member (ex-officio), Curriculum Committee, Faculty of Computer Science

2007-2008	Director, Master of Electronic Commerce Program
2006-2008	Member, Senate, Dalhousie University
2005-2007	Member, Master of Electronic Commerce Program Committee, Faculty of Computer Science
2004-2006	Member, Tenure and Promotions Committee, Faculty of Computer Science
2004-2005	Member, Search Committee, Faculty of Computer Science
2004	Member, Review Committee for the Director of INWK Program
2002-2003	Member, Search Committee, Faculty of Computer Science
1997-2003	Member, Tenure Committee of the Senate
1997-2003	Member, Tenure and Promotions Committee, Faculty of Computer Science
1996-2002	Member, Graduate Committee of the School/Faculty of Computer Science
1999-2001	Member, Graduate Engineering Programs Review Committee
1996	Member, Search Committee for the Associate Dean of Graduate Studies
1993-1997	Member, Senate, Technical University of Nova Scotia
1993-1995	Member, Graduate Program Committee of the Senate
1993-1995	Member, Graduate Program Committee, Faculty of Engineering
1993-1995	Chair, Nominations Committee of the Senate
1993-1995	Chair, Graduate Committee, School of Computer Science
1991-1992	Member, Graduate Committee, School of Computer Science
1990-1991	Chair, Undergraduate Committee, School of Computer Science
1989-1990	Secretary to the School of Computer Science
1989-1990	Member, Graduate Committee, School of Computer Science
1989	APICS Sub-committee on CS, School of Computer Science
1988	Ad-hoc committee on Information Systems (formed by President Callaghan)
1987-1988	Chair, Undergraduate Committee, School of Computer Science
1986-1987	Member, Undergraduate Committee, School of Computer Science
1986	Acting Director, School of Computer Science (June - August)
1985-1987	Chair, Graduate Committee, School of Computer Science
1982-1987	Member, Graduate Program Committee, Faculty of Engineering
1981-1984	Graduate Advisor, School of Computer Science

CURRICULUM AND TEACHING

Curriculum Development

- Co-developed curriculum of Bachelor of Computer Science, Master of Computer Science, and Ph.D. in Computer Science programs (as one of the original faculty members when the School of Computer Science, Technical University of Nova Scotia, was created).
- Streamlining Bachelor of Informatics program, Dalhousie University.
- Design of the curriculum for the Bachelor of Arts in Computer Science, Dalhousie University.

Teaching

- Developed and taught five graduate and five undergraduate new courses in Computer Science and many different university-credit courses, in Computer Science and Engineering with class sizes range from small to large (>100).
- Taught continuing education courses on Databases at the Technical University of Nova Scotia and at Dalhousie University.
- Taught courses in the Faculty of Engineering in the Master of Internetworking program and in the departments of Applied Mathematics and Industrial Engineering.

MAJOR EXTERNAL PROFESSIONAL ACTIVITIES

- CEO, 15498767 Canada Inc. 2024-present. Early startup company for novel Smart Contract as a Service (SCaaS)
- CTO, Peer Ledger Inc, Halifax, 2019-present. An SME company with software products for supply chains supported with the blockchain technology.
- Development and instruction of various courses and seminars, including courses taught as part of the Combat Systems Course for the DND, through the Division of Continuing Technical Education, DalTech, Dalhousie University.

President, DBMS Consulting Services, Halifax, NS, 1987-2003.

Co-Chair, Eighteenth International Conference on Systems Research, Informatics and Cybernetics, 2006.

Track Chair or Co-chair for ICISTM 2012, C3S2E 2009, 2008; IDEAS 2008, 2007 Privacy and Security Track, 7th McMaster World Congress for the Management of eBusiness, 2006 WCMEB 2006.

Track Co-chair, Privacy and Security Track, 7th McMaster World Congress for the Management of eBusiness, 2006.

Session Chair for various conferences and reviewer for many conferences.

Program Committee Member for SEDE 2017, ISCA 2017, SEDE 2016, W2SP 2015, ACS 2013, ACSE (2010, 2009, 2008), eInnovation 2009, C3S2E (2009, 2008), IDEAS (2009, 2008, 2007, 2006, 2005, 2004), CNSR (2008, 2007, 2006, 2005), WTAS (2007, 2006), ICE (2007), CONCUR (2006), WCMEB (2006), ACST (2007, 2006), MacMaster World of Congress (2006).

Reviewer for Grants: NSERC Strategic Projects Grant Program, NSERC JIIRP, NSERC Strategic grants, NSERC Operating grants, NSERC Discovery grants, NSF grants, Mitacs Internships

Reviewer for Journals: IEEE Computer, IEEE TDKE, DKE, J. AAI, Information Letters, IEEE Transactions on Knowledge and Data Engineering, ACM Transactions on Database Systems

MEMBERSHIP IN PROFESSIONAL ORGANIZATIONS

IEEE Computer Society

CURRENT RESEARCH INTERESTS

Key words: Blockchains, Ethereum, Hyperledger, Privacy, Privacy Enhancing Technologies, Privacy Enforcement, Quality of Service (QoS), Caching, Transactional Caching, Caching in Middleware Environment, E-commerce, E-business and E-Government, Distributed and Web Technologies, Distributed Database

Research Stream 1: Blockchains

Blockchain technologies have a potential to be a disruptive force in many domains, such as trade and finance and supply-chain logistics. We researched the use of blockchain technology for (i) authentication, access control, and data sharing in the context of collaboration with untrusted parties; (ii) identity management between public-key certificates and blockchain identities (USPTO patent application), and provenance of goods and services in responsible supply chains (USPTO patent application). Our current research efforts concentrate on creating smart contracts from models expressed in Business Processes Modeling Notation (BPMN) with results being published in high-impact journals and conferences and with IP protection by USPTO patents.

Research Stream 2: Information Privacy

As the use of e-business proliferates, the issue of privacy is gaining importance. We have developed architecture, based on the P3P platform, which supports requirements for enhanced user-controlled privacy. We are further proposing privacy services based on a Service Oriented Architecture for potentially outsourcing certain privacy management tasks in organizations.

GRADUATE THESES/PROJECTS SUPERVISED

Post Doctoral Fellow Supervision

Dr. C. Liu, Mitacs project *Automated Reporting of Sustainability and Safety Information for SMEs*. May 2024

Completed under my supervision/co-supervision – Over 90 Graduate students have successfully completed their graduate studies under my supervision and co-supervision in the following programs:

Doctor of Philosophy (Computer Science)
Master of Computer Science
Master of Applied Computer Science
Master of Electronic Commerce
Master of Engineering in Internetworking

List of students who successfully completed their graduate program under my supervision since 2015

(Shown are thesis/project title, student name, graduate program completed, year of program completion)

Supporting Long-term Transactions in Smart Contracts Generated from Business Process Model and Notation (BPMN) Models. Christian Liu. PhD (co-supervised with Dr. Jutla) Thesis, Faculty of Computer Science, Dalhousie University, 2024.

FSM Modeling for Off-Blockchain Computation. Christian Liu. Master of Computer Science, Dalhousie University, Nova Scotia, 2021.

DDOS Detection Models Using Machine and Deep Learning Algorithms and Distributed System. PhD (co-supervised with Dr. Srinivas) Thesis, Faculty of Computer Science, Dalhousie University, 2021.

Visualization of the Software Components in a Privacy Architecture for Web Services. Neel Patel. Master of Applied Computer Science, Dalhousie University, Nova Scotia, 2018.

Generating Qualified Plans for Multiples Queries in Data Stream Systems. Zain Ahmed Alrahmani. Master of Computer Science, Dalhousie University, Nova Scotia, 2017.

Authentication Using Ethereum Blockchain. Sandeep Kuri. Master of Applied Computer Science, Dalhousie University, Nova Scotia, 2017.

Data Sharing with Ethereum Blockchain in Untrusted Environment. Syed Shahzeb Hasnain. Master of Applied Computer Science, Dalhousie University, Nova Scotia, 2017.

Access Control Mechanism using Ethereum Blockchain. Master of Applied Computer Science, Dalhousie University, Nova Scotia, 2017.

Personalized Places Recommender System Using Implicit Feedback. Jay Soni. Master of Applied Computer Science, Dalhousie University, Nova Scotia, 2016.

E-Commerce Website Design Principles, Methodologies and Infrastructures. Zhuo Duan. Master of Electronic Commerce, Dalhousie University, Nova Scotia, 2016.

An Examination of Ethereum Platform in the Implementation of Universal Business Language Use Cases. Ramkumar Velmurugan. Master of Applied Computer Science, Dalhousie University, Nova Scotia, 2016.

Impact of Authentication Process on User Behaviour. Michael Bennett. Master of Electronic Commerce, Dalhousie University, Nova Scotia, 2016.

Security of Infrastructure as a Service (IaaS): Challenges and Solutions. Aakash Malik. Master of Applied Computer Science, Dalhousie University, Nova Scotia, 2016.

Injection of Privacy Services in Online Forms Collecting Private Information. Prasanna Elangovan. Master of Applied Computer Science, Dalhousie University, Nova Scotia, 2016.

PIP: A (Privacy) Injection Pattern for Inserting Privacy Patterns and Services in Software. Naureen Ali. Master of Computer Science, Dalhousie University, Nova Scotia, 2015.

RESEARCH GRANTS

2024	Mitacs Accelerate Program, \$112,000 over 2 years
2017	Innovacorp ESPF Grant, \$35,000
2016	NSERC ENGAGE Grant, \$25,000
2015	NSERC CREATE Grant, \$900,000 (five-year period), PI S. Matwin with 10 investigators
2013	NSERC ENGAGE Grant, \$25,000
2012	Nova Scotia Productivity and Innovation Voucher Program, \$15,000
2011	NSERC ENGAGE Grant, \$25,000
2011-2016	NSERC Operating Grant, \$70,000 (five-year period)
2009	NSERC Operating Grant, \$15,000
2004-2009	NSERC Operating Grant, \$83,500 (five-year period)
2004-2007	CFI Award – Advanced Internetworking Laboratory, \$1.8 mil., PI W. Robertson with 10 investigators
2000-2003	NSERC Operating Grant, \$60,000 (four-year period)
1999-2002	CFI Award: Centre for Advanced Research and Development in Global Information Networking, \$246,077 (three-year period), PI J. Slonim with 6 investigators
1992	NSERC Equipment Grant, \$7,902
1991-1993	NSERC Operating Grant, \$27,000 (three-year period)
1990	NSERC Operating Grant, \$5,000
1988-1989	NSERC Operating Grant, \$20,000 (two-year period)
1986-1987	NSERC Operating Grant, \$22,000 (two-year period)
1985-1986	BNR (Principle investigator E. W. Grundke), Intelligent CAD Inf. Systems, \$26,000
1984	BNR (Principle investigator E. W. Grundke), Text/Graphics Retrieval, \$17,000
1984	Novatron, Reliability in Database Systems, \$4,000

INVITED TALKS / PANELS

Key-note Address, “Blockchains: Challenges and Smart Contract Development,” IEEE SSSA 2021: 1st International IEEE Workshop on Smart Scalable and Secure Architecture, December 13-15, 2021 (virtual conference).

EGov Panel, International Conference in Electronic Commerce, 2008

Key-note Address, “Privacy Compliance Framework,” *Eighteenth International Conference on Systems Research, Informatics and Cybernetics*, Germany, August 2006.

Distinguished Lecturer Seminar, “Privacy in Service-oriented Architectures,” UTT, Trinidad and Tobago, 2006.

Plenary Talk, “QoS Architecture for Caching in Middleware,” *International Conference on Advances in Infrastructure for e-Business, Science, and Education on the Internet, SSGRR 2003*, Scuola Superiori G. Reiss Romoli (company of Telecom Italia), L'Aquila, Italy, 2003.

Workshop, “Quality of Services in Electronic Commerce,” CASCON 2001.

PATENTS

Patents Granted

USPTO - US-11461775-B2; Date Granted: October 4, 2022; Publication Date: November 24, 2022 (1)

System and method for tracking of provenance and flows of goods, services, and payments in responsible supply chains. [Bodorik, P.](#); and Jutla, D. US-11461775-B2; Date Granted: October 4, 2022; Publication Date: November 24, 2022. USPTO Patents Granted

USPTO - US-11461775-B2; Date Granted: August 4, 2020; Publication Date: November 24, 2022 (1)

Apparatus, system, and methods for a blockchain identity translator. [Bodorik, P.](#); and Jutla, D. US-11461775-B2; Date Granted: August 4, 2020; Publication Date: November 24, 2022. USPTO Patents Granted
[link](#) [bibtex](#)

CIPO – Canada - 2,975.843; Date Granted: 2023 (1)

Apparatus, System, and Methods for a blockchain identity translator – useful for Know Your Counterparty across interoperable blockchains. [Bodorik, P.](#); and Jutla, D. Canada 2,975.843; Date Granted: 2023. CIPO Patents Granted
[link](#) [bibtex](#)

CIPO - Canada 3,073,459; Date Granted: 2023 (1)

System and Methods for Tracking of Provenance and Flows of Goods in Responsible Supply Chains. [Bodorik, P.](#); and Jutla, D. Canada 3,073,459; Date Granted: 2023. CIPO Patents Granted
[link](#) [bibtex](#)

Patent Applications Aborted

BPMN Model Transformation into DE-HSM Multi-modal Model for Automated Generation of Smart Contracts Executed on Blockchains. Provisional Patent Application Number 63360585, submitted October 10, 2021. Inventors: D. Jutla, P. Bodorik and C. Liu.

A Method for Insertion of Privacy Services into Web Pages that Collect Personal Information. United States Patent and Trademark Office, Utility Patent Application Number 14678933, submitted 04-APR-2015. Inventors: P. Bodorik and D. Jutla.

Data Exchange Between Communicating Computing Equipment Using Differential Information. United States Patent and Trademark Office Utility Patent Application, Publication No. 20120246264, submitted 02/09/2011. Inventors: P. Bodorik and S. Qaiser.

A multi-platform system apparatus for interoperable, multimedia-accessible and convertible structured and unstructured wikis, wiki user networks, and other user-generated content repositories. United States Patent and Trademark Office Patent Application, Publication No. US-2010-01000439-A1, Publication date 04/22/2010. Inventors: P. Bodorik and D. Jutla
